Re: S.C. Withholding Tax Amendments

Code Section 12-9-310(A)(2)(3)

Effective July 1, 1994, Section 49, Appropriation Bill, Part II amended the above referenced code section to eliminate withholding from payments to nonresident contractors and rental recipients if the nonresident is registered or registers with the S.C. Department of Revenue or the S.C. Secretary of State's Office. The nonresident must provide an affidavit to whomever they are contracting with to that effect.

The entity or person letting the contract to the nonresident will retain the affidavit. In the absence of an affidavit being provided, withholding will be required (contracts--2%, rental or royalty recipients--7% for corporations, or 5% for individuals and partnerships).

The filing of the affidavit affirming registration by the nonresident eliminates the requirement to withhold by those letting contracts to nonresident as well as the posting of the surety bond by the nonresident. Enclosed is an affidavit and instructions to be used when contracting with nonresidents.

Forms to register for all taxes administered by the South Carolina Department of Revenue may be obtained by calling the License and Registration Section at (803)898-5872 or writing the S.C. Department of Revenue, Registration Unit, Columbia, S.C. 29214-0140.

INSTRUCTIONS

Code Section 12-9-310(A)(2) requires persons making payment to a nonresident taxpayer of rentals or royalties at a rate of \$1,200.00 or more a year for the use of or for the privilege of using property in South Carolina to withhold 7% of the total of each payment made to a nonresident taxpayer who is not a corporation and 5% if the payment is made to a corporation.

PURPOSE OF AFFIDAVIT

A person is not required to withhold taxes with regard to any nonresident taxpayer who submits an affidavit certifying that it is registered with either the South Carolina Secretary of State or the South Carolina Department of Revenue.

TERM AND DURATION OF AFFIDAVIT

It is recommended that an affidavit be obtained from a nonresident taxpayer for each separate contract or agreement. Otherwise, the affidavit submitted by a nonresident taxpayer shall remain in effect for a period of three (3) years, or for a lesser time if the person earlier receives notice of revocation of exemption from withholding from the South Carolina Department of Revenue.

Specifications to Furnish, Tow, and Sink up to three (3) steel-hulled vessels For use as Artificial Reef Material

The Artificial Reef Program of the South Carolina Department of Natural Resources is seeking to procure up to three (3) steel-hulled vessels for use as artificial reef material.

SCOPE OF WORK

The contractor must be able to provide one, two or three vessels (tugboat, crewboat, barge or similar type vessel) with a minimum length of 45 feet and a vertical height not exceeding 15 feet. The contractor will be responsible for all cleaning and preparation of the vessel(s) prior to sinking including, but not limited, to the following:

- All loose or buoyant debris removed from all decks.
- Watertight doors, hatches, deck plates removed or welded open.
- All hazardous materials removed, including petroleum products, batteries, mercury gauges, thermometers, etc.
- Oil and fuel drained and flushed from engines, bilges, steering and other hydraulic oil reservoirs and lines.
- Fuel tanks, ballast tanks and fuel lines drained, cleaned and flushed.
- All internal voids permanently opened.

Upon inspection of the cleaned vessel they must be towed to the designated reef sites off of Horry and/or Georgetown Counties. The contractor must provide the necessary tug and support crew for transporting the vessel offshore and anchoring on the exact location indicated by MRD personnel. Upon confirmation of the anchoring site, the contractor is responsible for the sinking of the vessels. Sinking must take place in such a way as to insure complete and even flooding of the entire vessel and level sinking of the vessel.

The vessels will need to be inspected by MRD personnel prior to acceptance of any bid and again prior to sinking.

OFFSHORE DEPLOYMENT

The size and number of vessels provided will determine the exact deployment locations among the following artificial reef sites:

Little River Reef	33° 48.81' N – 078° 30.51' W, 2.5 miles from Little River Inlet, water depth 30 feet.
Little River Offshore Reef	33° 41.96' N - 078° 26.70' W, 10.5 miles from Little River Inlet, water depth 60 feet.
Georgetown Reef	33° 14.33' N – 079° 00.14' W, 7.5 miles from Winyah Bay jetty, water depth 40 feet.

The tugboat towing the vessels should be equipped with a working, accurate GPS unit and other marine electronics including a working VHF radio. Effective and reliable communications must exist at all times during the operation between the tug and MARP personnel on site.

The Contractor must provide MARP personnel with a minimum of 48 hours notice prior to the intended deployment of any vessel. MARP personnel will coordinate with the Contractor regarding schedules, planned operations and specific locations for each vessel. It is anticipated that an SCDNR vessel will be available for on-site monitoring of the deployment operations. In the event that such a vessel is unavailable, MARP personnel may be required to accompany the Contractor aboard the tug to carry out these monitoring activities.

Weather, especially sea conditions, is a critical factor in assuring safe and effective deployment of reef materials. For this reason, deployment operations will only be initiated when sea height in the operations area is no greater than 2 to 4 feet as forecasted by the NOAA weather office in Charleston, SC, unless agreed upon by the MARP and the Contractor. The final decision to proceed offshore will be with the Contractor, however, the SCDNR reserves the right to suspend deployment operations if positioning or other deployment objectives are not being met.

The Contractor must ensure all appropriate insurance coverage needed for this work is in effect.

LIABILITY, RESPONSIBILITY FOR MATERIALS AND INSURANCE

All liability, risk of loss and responsibility for the safe handling, physical security, and delivery of the vessels shall be borne by the contractor. This liability, assumption of risk and responsibility shall remain with the contractor until the vessels are at rest on the ocean bottom at the permitted reef sites in accordance with Artificial Reef Program specifications.

It is imperative that the vessels deployed by the contractor be sunk as close as possible to the positions indicated by Artificial Reef Program personnel. In the event that materials are deployed in such a manner that they are outside the permitted reef boundaries, or deployed in such a manner that the vertical profile of the material exceeds the permitted limits, liability and responsibility for the vessels will remain with the contractor until the deployed vessel has been brought into compliance with the terms of the construction permit for the reef site.

Prior to initiating any work, the contractor must ensure that sufficient liability insurance is in place to cover all aspects of the job. The contractor must be able to provide proof of this insurance if requested by the SCDNR.

SCHEDULE

The vessels must be deployed on the specified permitted reef sites no later than 120 days after awarding of the bid unless otherwise approved by SCDNR.

PENALTY

The contractor shall be assessed a penalty of \$100.00 per calendar day for each day the work goes beyond the established completion date, unless such a delay is due to weather beyond the limits of that established for safe offshore deployment, or other acceptable reasons agreed to by the SCDNR.
